

# SOLEUM-Mounting KIT with System!

The sole cabin in the standard version is a -ready for tiling- manufacturer kit with high-quality shower separation. The customer chooses the design of the tiles and is responsible for the water connections. It is so easy to bring a new spa with health benefit into your exclusive hotel bath room!

Because of the well thought-out Installation-KIT system the SOLEUM is not only reserved to hotels and wellness areas, but enters the private bath area to a fair price.

## Which items consists the mounting kit?

### The kit consists of:

- Technical part consisting of technical apparatus for sole atomization, air tubes, air pressure switch, injection system, acryl box
- heated floor plate, seat and wall tiles (all heatings are pre-installed, connection possibility for the armature and the sprinkler are marked)
- Heating control
- high quality shower doors (glass H1, 6mm ESG transparent)
- separate part for acryl box
- Material for putting the parts together
- 3 lamps
- Mounting instruction

### optional available:

- steam generator with control (Upgrade to steam cabin with sole atomization)
- Color therapy light system

## only 5 steps to a complete SOLEUM CABIN – simply easy!

**1** stick together on site

**2** establish the sanitary connections
