

# The SOLEUM®

## The functional spa experience with health benefit

The Soleum is a shower cabin with infrared heat and sole atomization (sole definition: A fully saturated solution of water and Crystal Salt or sea salt)

**BENEFIT-** health and well-being - these key words apply in each view to the new development.

**FUNKTIONALLITY** - because the Soleum is an adequate shower cabin.

**WELL-BEING** - infrared radiant heat is produced by the heated seat, wall surfaces and bottom.

**HEALTH** - sole inhalations are a substantial contribution for healthy respiratory system (expectorant, anti-inflammatory). Further the atomised sole works skin abstergent and in combination with the infrared radiant heat of the cabin (~ 45C) the circulation and the musculature will be relaxed.

### More Indications:

- Acute and chronic bronchitis
- asthma bronchiale
- acute and chronic cold, hay cold
- acutes and chronic paranasal sinusitis
- ear illnesses
- neurodermitis

You can also atomize tee for inhalation e.g. camomile, peppermint, thyme,...

Because of the low connected load the cost of operation is eminently convenient. (~ 1250W: 15 Cent pro kWh, 1 hour = 18,75 Cent, depends of the current costs of the country)

Our SOLEUM CABIN replaces the standard shower and transform it to a SPA cabin with health benefit. The bath become a small wellness room.

The Soleum is available in the following cab sizes:

Standard Suare	Standard Round	SOLEUM 2 Person (seats)	Soleum PUPIL
90x90cm, 100x100cm, 110x110cm, 120x120cm, high=210cm	90x90cm, 100x100cm, 110x110cm, 120x120cm, high=210cm	120x120cm, high=210cm	110x110cm, high=210cm
